

PAID INTERNSHIP OPPORTUNITY

Mobile Application Developer

18/05/15

DESCRIPTION:

Blueprint: Film are an innovative creative agency that have been creating film and multimedia content for almost a decade. Our portfolio spans a broad spectrum of creative media, including feature film, app development, web design, educational courses & events management. We are currently in the process of developing a multiple apps with some great clients, and are looking for a confident developer and programmer to assist us on this project. This is a paid internship opportunity that will last for 6 months, the start date is flexible, but will be July at the earliest, and September at the latest.

YOUR ROLE:

We are looking for someone to programme a mobile app for iOS and (possibly) Android. You must be competent and confident within this role and where experience is a bonus, it is not a requirement. This role is full time and will pay above NMW.

REQUIREMENTS:

- Confident in programming for iOS (essential) and Android (preferable).
- Design Skills desired, but not essential.
- Web programming skills a bonus, but not essential
- We would prefer you to work from one of our offices; either in London (Bethnal Green) or Lincoln, but we are open to the right candidate working remotely.

CONTACT:

To apply for this internship, please send your cover letter, CV and (where possible) examples of your work to admin@blueprintfilm.co.uk.

We look forward to hearing from you!
